Greetings!!!

At this 5th Foundation Day of the National Cancer Institute (NCI-AIIMS), the Oncology Group at AIIMS, New Delhi invites you all to the NCI for the AIIMS Oncology Conclave 2024 (AOC-2024).

The many institutions of the AIIMS network and other INI institutions share commonalities in terms of the training courses taught by us, and also in terms of the challenges and opportunities in the cancer care undertaken by us. At this particular conclave we would delve to discuss modalities to improve and collaborate on training and teaching so as to optimally utilize the strengths of individual departments and institutions. Further, it gives us opportunity to forge partnerships on common research questions of relevance to all of us.

Our commitment to advancing the field of oncology has been unwavering. Let us use this platform to inspire, collaborate, and envision a future where cancer is not just treatable, but also preventable, and where every patient receives the best care possible.
