

Dear Dr. Prashun Chatterjee

MD Geriatrics Medicine & Asst. Professor
Department of Geriatric Medicine
All India Institute of Medical Sciences New Delhi.

At the outset let me and my whole family **thank you** for your kind help in the case of Sh. Jai Kumar Rakyam, my father-in-law, aged 70 years.

Post returning back from a surgery for a fractured left hand (**from a prominent Delhi hospital**), he was unable to stand....terrified that he would fall again. Completely in a state of delirium. We were hopeless, not knowing what to do.

That's the time you helped out, with your personal & patient care. We realized, for the first time, how important **Geriatrics Medicine** as a profession is.....more importantly how doctors like you are the real change makers.

Today after 2 months I must say that he is absolutely fine, healthy with not the slightest sign of the trauma & pain he had gone through. It would not have been possible without your kind help & care.

We as a family again thank you Dr. Prashun, for your care & patience to heal him back to good health.

Also we are most proud to have institutes like the AIIMS.....which unmistakably are the best in the country.

Warm Regards

Rajeev Doval
