Dated: 25<sup>th</sup> May, 2023

**OFFICE MEMORANDUM**

**Subject: Constitution of Committee for increasing uptime and ensuring optimal utilization of bio-medical equipment through IoT at MCH Block- reg.**

Hospital equipment maintenance using the Internet of Things (IoT) involves the integration of smart devices and sensors with hospital equipment to monitor its performance, detect faults, and schedule proactive maintenance. It offers numerous benefits, including improved equipment uptime, reduced maintenance costs, and enhanced patient safety. In this regard, it has been decided to implement advanced equipment management systems using IoT at AIIMS. A pilot implementation will be done at Mother & Child Block under the supervision of a committee comprising of the following officials:
