OFFICE MEMORANDUM

There is a long waiting list for CT studies at AIIMS. Hence the patients go to Private Diagnostics Centres for their CT Scans. Many patients are having their CT Scans repeated at AIIMS, as the scans done at some Private Diagnostics Centers do not yield sufficient diagnosis or they are incomplete. The CT Scans of the patients from wards/OPDs to be done at AIIMS only, to avoid any unnecessary delay in the treatment. Hence it has been decided that the number of CT appointments have to be increased by implementing the following:

1. The time duration for each CT scan to be optimized so as to handle more patients.
2. All the 9 CT scanners (2 in Department of Radio Diagnosis, 1 in Dr.BRAIRCH, 1 in CTC, 1 in NSC, 2 in Trauma Centre and 2 in NCI Jhajjar) to be made functional 24x7.
3. Operationalize the CT at National Centre for Ageing (Geriatric Block) and Surgical Block and make it functional 24x7.
4. HOD Radio-diagnosis to speed up the procurement of CT for Mother and Child Block & New Pvt. Ward.
5. Explore the possibility of consolidating the GA cases, so as to reduce the time lapse in between the scans (after GA, the time for extubation of the scanned patient, and the intubation of the next patient to be planned in such a way to reduce the waiting time).
6. CT for Research/Study to be done only on Sundays unless it is required for immediate intervention.
7. The following Committee is constituted to recommend the requirement of CT equipment and Manpower that is required to cater to the long-term needs of AIIMS.
