Subject: Regarding starting the Menopausal Clinic in the department of Obstetrics & Gynaecology

Respected Sir,

The Department of Obstetrics & Gynaecology is sincerely taking care of reproductive age group patients, oncology and infertile patients in routine Gynaecology OPD as well as special clinics running under the department. The most important age group which is postmenopausal age group is not getting special attention and it's an endeavour of the Department to start a Menopausal clinic in routine Gynaecology OPD on every Friday from 9 am-1 pm.

In this clinic we will address the issues of this special age group which is mostly neglected. We will screen patients for not only Gynaecological problems but also for other systemic problems which are common in this age group like HTN, DM, Cardiovascular and bone problems. We will also provide dedicated screening and counselling of the patients.

Kindly consider the request and do the needful.

Thanking you

Yours sincerely

Dr Neerja Bhatla
Professor & HOD
Department of Obstetrics & Gynaecology
AIIMS, New Delhi
