ANSARI NAGAR NEW DELHI

FIRST YEAR PROGRESS REPORT

PROJECT TITLE: "AGE SPECIFIC NOMOGRAMS OF ANTI-MULLERIAN
HORMONE AND ANTRAL FOLLICLE COUNTS IN INFERTILE AND FERTILE
INDIAN WOMEN".

PERIOD FROM: 01/12/2016 – 30/11/2017

With the initiation of our above project our performance to be 1503 as for.

No of patient screened: 4200

No of patient enrolled (AMH sample collected and AFC done): 1503

We have done 1503 till the end of one year. The first two three months were utilized and the standardizing the Kits (AMH Elisa Kit) used for AMH.

Therefore the initial recruitment in first three four months was slightly slow.

Target for Next Year:

Patients to be enrolled: 2497

Since we have a standard protocol to AMH & AFC we shall be all to meet our target without any delay.
