

**BLOOD BANK**  
**JAI PRAKASH NARAYAN APEAX TRAUMA CENTER**  
**AIIMS**

BB circular/ JPNATC/ 02/2020

Dated 9.7.2020

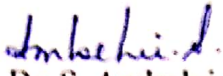

**For Kind Attention of all Faculties/ Residents/Staff in JPNATC**

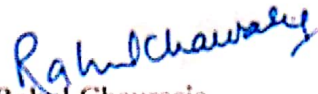

This is for your kind notice that the Blood Stock in Blood Bank, JPNATC is depleting steadily. We are facing severe shortage of Packed RBC and Platelet Concentrates due to which we have to arrange these blood components from Main Blood Bank/ CNC Blood Bank, AIIMS or Indian Red Cross Blood Bank, New Delhi. But now with shortage of Blood units in their respective Blood Banks it is becoming difficult to arrange Blood/component units from other Blood Banks.

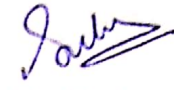

Over the past few weeks, there is rise in the number of transfusion requests for patients admitted in covid ICU/Wards (without getting any replacement blood donation done at Blood Bank, JPNATC). It has been noted that during last 3 months no replacement blood donation is being done from patients attendant admitted in Wards/ICU.

In view of the above mentioned situation, it is a request to all the treating clinicians to kindly motivate the patients' attendants for replacement donation. Also send all routine demands attached with blood donation cards, without which it will be difficult to accept such requests.

This will help the blood transfusion services to run efficiently and serve the needy patients.
