Sub: STERRAD® Consumables -Proprietary Consumables and Non availability on GeM portal

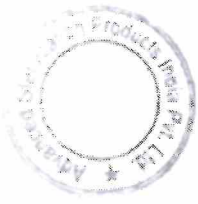

Dear Sir,

In reference to above subject this is to share that our proprietary consumables and accessories to run the STERRAD® system are not available on GeM currently. We are working on it.

Further to inform that all the Consumables of STERRAD® are proprietary in nature and recommend by the company to be used in the STERRAD systems. These consumables been tested and verified to work with STERRAD®, no other products/company has undergone any quality or compatibility testing. Hence, usage of any other product might result in sterility failure and might also result in damaging the STERRAD® systems.

As ASP takes the responsibility of highest standards of safety with its Sterilization process, we recommend using only the validated consumables and we would not be responsible for any sterility failure or damage to STERRAD® with the usage of non-validated product. Thanks for your cooperation, assuring you of best services always.

Thanks & Regards,
